Who Are We?

We are four perfect strangers that came together in 2020, during a global pandemic. We have managed to create something really special and we have an incredible community, which sits at the heart of team Relentless.

We are extremely passionate about helping people generate multiple streams of income. We understand the importance of finding financial freedom, and even the smallest amount of extra income can really make a massive difference, to a lot of people.

We don't make any income guarantee claims, and you won't be a millionaire overnight, but we can guarantee to support you on your journey. One that could take you one step closer to achieving that ultimate financial freedom goal that we all have.

We have helped our members create multiple streams of income through foreign exchange trading, crypto, nodes and now through the joys of NFT giveaways.

Meet The Directors

There is no team out there in this space who are more transparent than the team at Relentless. We are a UK Limited company, we share our full names, faces, links to social media, and if you become a Relentless member we are on live calls 3 times a week, and accessible via WhatsApp, Telegram etc.

Vicky Dean

CEO, Director

Vicky started investing in cryptocurrencies approximately 5 years ago, and holds a CPD certified cryptocurrency diploma.

Vicky's work experience includes over 6 years in the civil service, most recently as a Fraud Investigator for a government department.

Why Now and Why NFT's?

In April 2022, we will have been trading successfully for one year. During that time our community has grown from 0 members to over 130, and a recent survey showed that over 95% of these would still be with us at the end of 2022.

We have helped many people make money through our foreign exchange education, with members going from zero knowledge to fully funded traders (check out some of their live interviews on Facebook).

This has been delivered via a unique back office system where you can learn at your own pace via the basic, advanced and live education, coupled with our own Trading View custom indicators, trade ideas and news Telegram channels.

Our crypto education follows the same model with a learn at your own pace course and live sessions.

We have evidence that our model works, and it has successfully enabled some of our members to become 3, 4 and 5 figure monthly earners via either the forex funded trader route or via crypto, and the node passive income route. We are on track to create our first 6 figure monthly earner later this year (passively), which is just incredible!

We are now in a position where we want to enhance our community even further, which has led us to a point where we can further give back via a node invested treasury giveaway NFT model.

This will enable our members to extend their journey with us even further, as well as give others a taste of what Relentless can offer to the wider world. We currently have members across 3 continents and want to be able to offer a safe space for those who are looking for a single resource to provide them with multiple streams of income.

So, What's The Plan?

Minting Begins

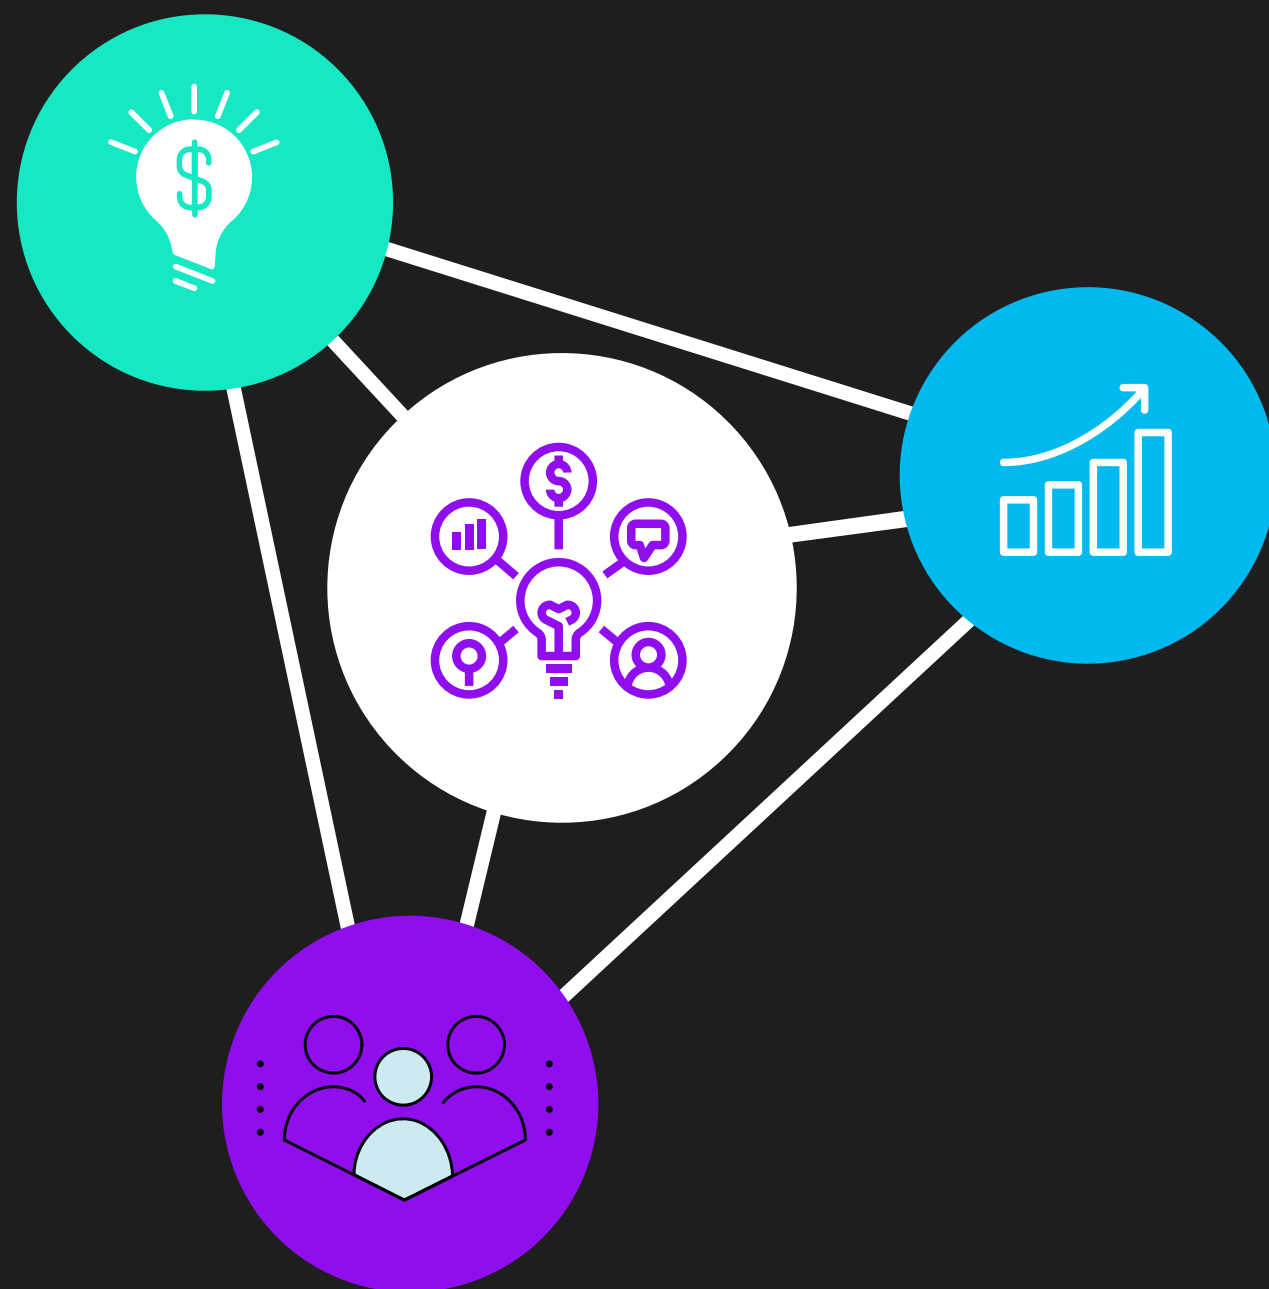

1 April 2022, first 50 will be minted on NFTrade.com. There will be 1,000 unique first edition NFT's minted over the next few months, and a maximum of 10,000 minted.

Giveaways Begins

Every 50 NFT's sold, the giveaways will take place. We have opted for more giveaways because we want more winners!

Treasury Starts Work

The treasury will invest in various stablecoin yields and node projects, diversifying funds to maximum treasury performance.

Giveaways Explained

- 1** Every 50 NFT's that are sold, all holders/participants are entered into the \$5,000 giveaway, which comprises of 1 x \$2,500, 1 x \$1,000 and 3 x \$500
- 2** Every 50 NFT's that are sold, Relentless members that own a NFT will also be entered into another separate \$5,000 giveaway, which comprises of 10 x \$500
- 3** Every last 50 NFT's sold, there will be a separate giveaway solely for those 50 holders. This will comprise of 2 x \$500, essentially a 1 in 25 chance of owning a free Relentless NFT.

What's the Maths Then?

As we've explained, at Relentless we are all about helping people win, that's why we've created this model to increase participant's chances of winning! Here's the tokenomics and how the money generated from NFT sales will be distributed.

Giveaways will take place after 50 NFT's have been sold, and again every 50 sold thereafter. Here's the distribution of funds, how it works and giveaway amounts (winners will be paid in AVAX):

*If there isn't 10 Relentless members that hold an NFT at the time of the giveaway, then the total giveaway pot will be split equally between those holders, i.e. if there's only 5 Relentless members that hold a NFT, then the \$5,000 giveaway will be split equally 5 x \$1,000 each.

Sustainability

Sustainability is something most projects will struggle with. That's why we plan to invest some of the treasury funds into stablecoin yields. Essentially, this should generate a decent return, and allows us to use the remaining % of the treasury to invest into other higher risk/higher reward projects, these could include Strong, Project X etc.

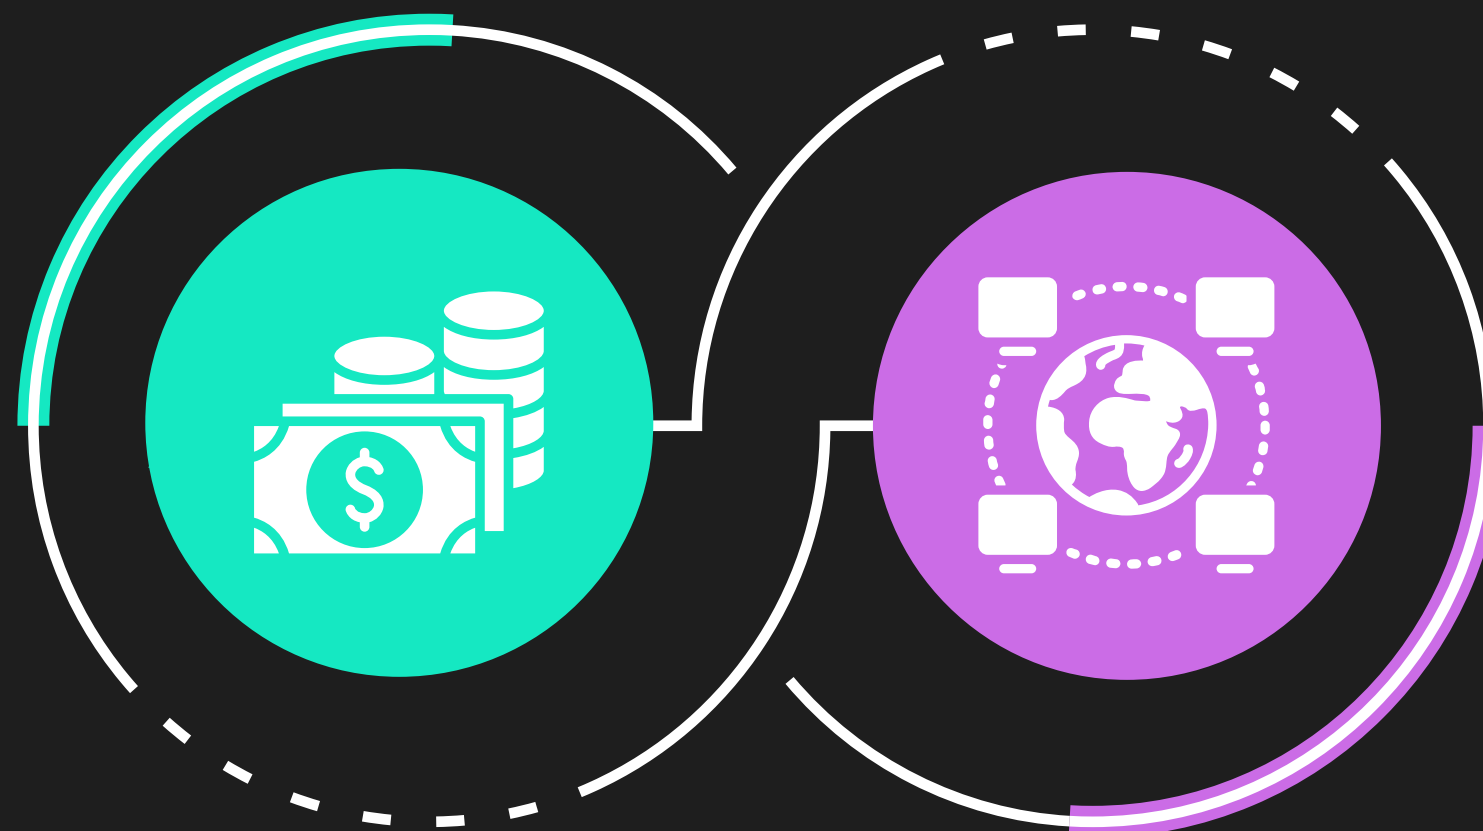

We want people to know that we plan to be around for a really long time, but we also wanted to provide some additional security to our NFT holders. We don't believe that there's any other project out there that guarantees longevity. Therefore, Relentless will guarantee that there will be a minimum of \$10,000 in giveaways each month, for at least 5 years, once all 10,000 NFT's have been sold.

So, as a NFT holder, this is the worst case scenario! Best case is - many more giveaways to come in the future!

Income

Relentless already manages 80 Strong nodes, and expects these to be in the region of 400 nodes in December 2022.

The NFT sales will ultimately also help form part of the treasury, and any investment rewards will be used to form additional giveaways, whether that's increased amounts or number of winners (or both). These will depend on the treasury performance.

Investments

We know that nodes are hot right now, but we also understand the risks associated with these. That's why the treasury investments will be split across stablecoin yields and various other higher risk to reward investments (nodes etc).

The idea being, the stablecoin returns will generate lower risk/steady returns to recover any losses on other investments. This will also allow us to re-invest and diversify the portfolio into other higher reward projects.

FAQ's

Q. How much is a Relentless NFT?

A. \$500

Q. How many Relentless NFT's are there?

A. 10,000 in our first collection, all will be unique and released in batches of 50.

Q. How do I purchase a Relentless NFT?

A. Via the NFTTrade.com website. You will need to have AVAX in your MetaMask in order to complete the purchase. Don't rush this part, take your time so you don't make any mistakes!

Q. When and how is the giveaway conducted?

A. After every 50 Relentless NFT's have been sold (yes - we know that's a lot of draws) we will complete the draws via a computer generated ticket picker.

Q. So, when is the first giveaway and how many are there?

A. They will start as soon as the first 50 are sold, Those in the first 50 will remain in the future draws too. There will be 200 draws over the 10,000 NFT's sold. Then, following the sale of all 10,000 NFT's, there will be a minimum of \$10,000 per month in giveaways for 5 years.

Q. How many of those awesome Relentless NFT's can I buy?

A. Honestly, as many as you want, but don't get like a few thousand as it'll get weird...

Q. Why does some money go to charity, how much and who?

A. We are nice people, we have been involved in suicide prevention and mental health programmes, and always have an ethos of giving back. We will donate 5% of each NFT sale to high impact good causes, either Community Interest Companies, Charities or Not For Profits. Small grants to have impact on people who need help now, not a prolonged application process, just a simple easy to access fund. Andrew is a Fellow of the Lloyds School For Social Entrepreneurs and has completed both their Start Up and Trade Up Program in recent years. We want the community to vote on where these donations may go, so watch this space on that!

Q. Do you have a treasury already?

A. Yes, we currently manage in the region of 80 strong nodes, and forecast this to be somewhere near 400 by the end of 2022.

Q. Can I sell my NFT on to someone else?

A. Yes, that's the beauty of NFT's!
